

TAKING OFF PERSONAL PROTECTIVE EQUIPMENT

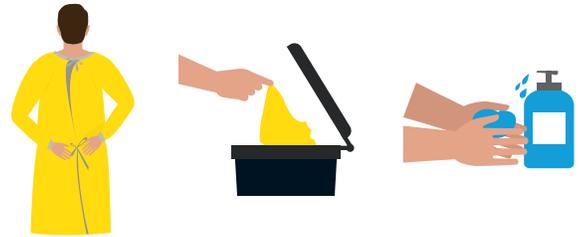

COVID-19 Droplet/Contact Precautions

Including eye protection cleaning and disinfection

- 1** Remove gloves using proper technique and discard

- 2** Remove gown by folding inwards. Discard it then sanitize hands

- 3** Clean and disinfect eye protection

1. After removing gloves and gown in the doffing area, proceed to eye protection disinfection area
2. Put on new gloves
3. Remove eye protection
4. Wipe the eye protection once, using a one-step cleaner/disinfectant. Start with the inside first then the outside. It must remain wet (for 1 or 3 minutes) depending on contact time. Check the instructions on the disinfectant label
5. Place eye protection on a hook or on a designated "clean area" to dry

- 4** Take off gloves and sanitize your hands

- 5** Take off mask by handling the straps and do not touch the front of the mask. Discard mask and sanitize hands

- 6** Put on new mask

Ensure mask fits tightly around the nose

- 7** Put on clean eye protection

If your eye protection is damaged or heavily soiled, replace it

Stay safe. Stay informed.
