

Personal Protective Equipment

Personal Protective Equipment (PPE) should be worn to prevent the spread of disease-causing microorganisms. By protecting your skin and face (mouth, eyes and nose) with PPE you minimize your chance of getting these organisms into your body.

Putting on Personal Protective Equipment

1 Hand hygiene	2 Gown	3 Mask	4 Eye protection	5 Gloves
				

Removing Personal Protective Equipment

1 Gloves	2 Gown	3 Hand hygiene	4 Eye protection	5 Mask	6 Hand hygiene
