

The Regional Municipality of York

## NOTICE OF PUBLIC CONSULTATION CENTRE

### CLASS ENVIRONMENTAL ASSESSMENT STUDIES

City of Vaughan

**Intersection of King-Vaughan Road and Dufferin Street (Y.R. 53)**

**Intersection of King-Vaughan Road and Keele Street (Y.R. 6)**

**Intersection of King-Vaughan Road and Jane Street (Y.R. 55)**

The Regional Municipality of York has initiated Class Environmental Assessment Studies to determine existing and future transportation needs for King-Vaughan Road at the intersections of Dufferin Street (Y.R. 53), Keele Street (Y.R. 6) and Jane Street (Y.R. 55) in the City of Vaughan.

These studies are being carried out as Schedule 'B' projects, in accordance with the requirements of the Municipal Class Environmental Assessment (Class EA) process (October 2000, as amended in 2007). The studies will review the need and justification for possible modification to the intersections, examine alternatives and evaluate potential impacts that the intersections modifications may have on the natural and social environment.

Public consultation is vital to these studies. If you wish to provide comments, York Region is hosting a Public Consultation Centre (PCC) for interested residents. Feedback from this PCC will be added to comments received through earlier consultation in October 2009.

**Date:** July 13, 2010

**Location:** King City United Church, 50 Elizabeth Grove, King City

**Time:** 6 p.m. to 8 p.m.

The PCC will provide an introduction to the projects and give attendees further opportunity to provide input into the project planning. Items to be discussed include existing and future traffic conditions, preliminary recommended planning alternatives, alternative design solutions and alternative design evaluation.

Anyone with an interest in these studies has the opportunity to get involved and provide input before any decisions are made on the preferred concepts for each of the intersections. If you are unable to attend and would like to provide us with your comments before the PCC, please contact one of the following team members:

**Gina Gammarano, M.Eng., P.Eng.**
