Rhyme

The Moon is Round

(Note: This rhyme always ends with a smile - and with a damp washcloth in your hand, you can wash a face as you say it.)

The moon is round
As round can be
(Trace a circle with your finger around the baby's face, touching gently)

Two eyes, a nose, and a mouth
(Touch under the baby's eyes and on his mouth)

Like me!
(And here's the smile, of course!)
