Keeping York Moving

York Region
www.york.ca

What is it?

The *Open Roads* program ensures that lanes remain open as much as possible. *Keeping York Moving* by managing traffic flow.

York Region Rapid Transit Corporation (YRRTC) is building rapidways on Highway 7, Davis Drive and Yonge Street. We're committed to managing road activities surrounding these rapidways (parallel and intersecting).

Ensuring that lanes remain *open* and closures are minimized is important for emergency service vehicles, commuters and businesses whose customers rely on these routes.

York Regional staff will carefully control road activities in the areas highlighted on the maps on the back of this flyer.

We've developed this program to help developers, businesses, residents and utility companies understand the road activities timelines and options available to them for each area.

York Region

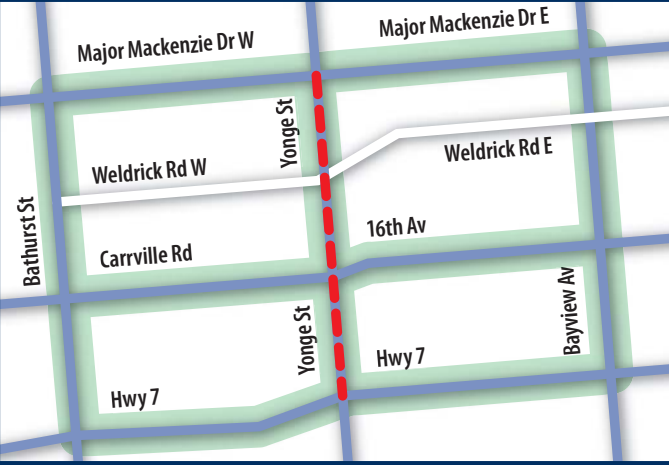

Davis Drive Between Bathurst St. and Harry Walker Blvd.

Highway 7 Between Yonge St. and Kennedy Rd.

Yonge Street Between Major Mackenzie Dr. and Highway 7
