## CLASS ENVIRONMENTAL ASSESSMENT STUDY Keele Street (Y.R. 6) Road Improvements Steeles Avenue West to Rutherford Road (Y.R. 73) City of Vaughan

The Regional Municipality of York (York Region) has completed the Class Environmental Assessment (Class EA) Study for road improvements to Keele Street from Steeles Avenue West to Rutherford Road in the City of Vaughan. This section of Keele Street was identified for improvement in the Region's 2009 Transportation Master Plan to accommodate existing and future traffic requirements.

The study identified the following improvements for Keele Street:

- A six-lane urban cross-section on Keele Street from Steeles Avenue West to Rutherford Road
- High Occupancy Vehicle (HOV) lanes and on-street bike lanes
- Storm sewers along Keele Street south of the CN Rail corridor
- Sidewalk and illumination where appropriate (in consultation with the City of Vaughan)
- Replacement of the CN railway bridge
- Streetscaping

### The Process

The study was undertaken in accordance with the Municipal Class Environmental Assessment process (October 2000, as amended in 2007) for a Schedule 'C' project. The Class EA process included public and agency review and consultation at key stages of the study, including input and comments at two public consultations.

The planning and design process has been documented in an Environmental Study Report (ESR). The ESR is available for public review for 30 days, beginning January 23, 2012 at the following locations during regular business hours:
