

The Regional Municipality of York

NOTICE OF STUDY COMMENCEMENT

CLASS ENVIRONMENTAL ASSESSMENT King-Vaughan Road at Dufferin Street (Y.R. 53) City of Vaughan

The Regional Municipality of York has initiated a Class Environmental Assessment Study to determine existing and future needs for the intersection of King-Vaughan Road and Dufferin Street (Y.R. 53) in the City of Vaughan.

This study is being carried out as a **Schedule `B`** project, in accordance with the requirements of the Municipal Class Environmental Assessment (Class EA) process (October 2000, as amended in 2007). The study will review the need and justification for possible changes to the intersection, examine alternatives and evaluate potential impacts that changes would make to the natural and social environment. Upon completion of the study, an Environmental Study Report will be filed and placed on public record.

Public consultation is vital to this study. Residents have the opportunity to get involved and provide input before any decisions are made on a preferred concept for the intersection. A Public Consultation Centre (PCC) will be held during the study and will be advertised in advance. Notices providing the time and location of the PCC will be published in local newspapers.

Information regarding the study is being collected to assist York Region in meeting the requirements of the Environmental Assessment Act. All information will be maintained on file for use during the study, and unless otherwise requested, may be included in the study documentation which will be available for public review.

Public Comments Invited

Comments are welcome at anytime during the study. For further information, or to be added to the study mailing list, please contact:

Gina Gammarano, M.Eng., P.Eng.
