

The Regional Municipality of York

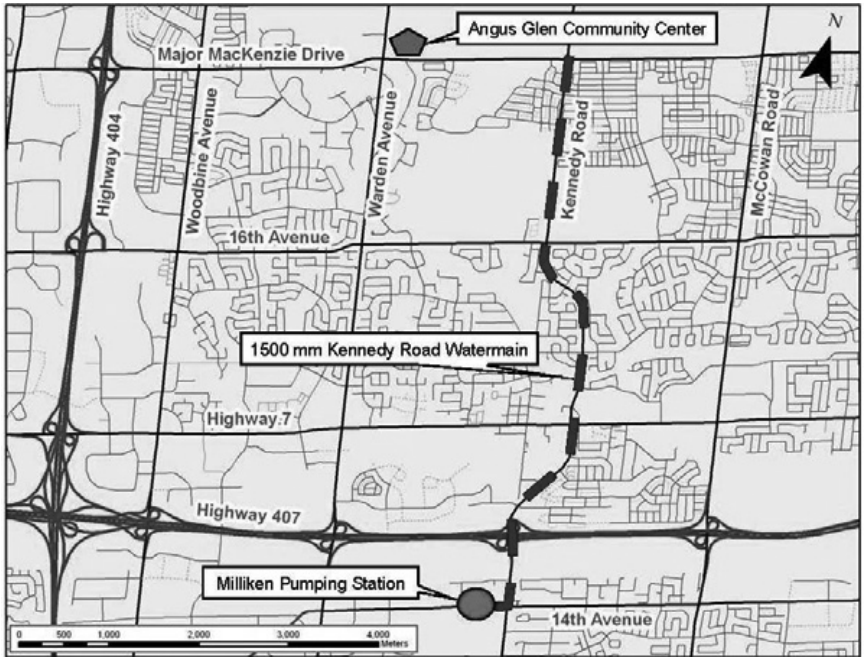

Public Information Centre

1500mm Diameter Kennedy Road Watermain

Town of Markham

The Project: The Regional Municipality of York (York Region) is planning to construct a 1500mm diameter watermain from the City of Toronto (Toronto) Milliken Pumping Station on 14th Avenue, north along Kennedy Road, with a connection to an existing 1050mm diameter York Region watermain located on Major Mackenzie Drive in the Town of Markham (the Watermain Project).

The Watermain Project was identified in the Toronto and York Region Joint Optimization Study (updated in March 2006) which identified water system requirements for the planned growth in Toronto and York Region. The Study was completed in accordance with the requirements for Schedule 'B' projects as described in the Municipal Engineers Associations "Municipal Class Environmental Assessment" document (October 2000, as amended in 2007), on September 2007.

Public Information Centre: York Region will be hosting a Public Information Centre to present details on the start of construction and to inform residents and stakeholders of the key issues. All those with an interest in the construction of the Watermain Project are urged to attend.

The Public Information Centre will be held:
Tuesday, March 22, 2011, From 6 p.m. to 9 p.m.
Angus Glen Community Centre
3990 Major Mackenzie Drive East, Markham

If you require accommodation to fully participate in this meeting, please contact York Region at 905-830-4444 ext. 5006 to advise of any specific requirements.

Written comments are also invited for further consideration and for those unable to attend the Public Information Centre. York Region invites your input and comments on the Watermain Project construction and key issues. Please forward your questions and comments to the Region's project manager listed below.
