- (a) in the case of a residential building or structure, or in the case of a mixed-use building or structure, the residential uses in the mixed-use building or structure, an amount calculated by multiplying the applicable development charge under subsection 3.6 of this by-law by the number, according to type, of dwelling units that have been or will be demolished or converted to another principal use; and

- (b) in the case of a non-residential building or structure or, in the case of mixed-use building or structure, the non-residential uses in the mixed-use building or structure, an amount calculated by multiplying the applicable development charges under subsection 3.7, 3.8 or 3.9 of this by-law by the gross floor area that has been or will be demolished or converted to another principal use;

provided that such amounts shall not exceed, in total, the amount of the development charges otherwise payable with respect to the redevelopment.

Reduction of Development Charges Where Gross Floor Area is Increased

3.12 Despite any other provisions of this by-law, if a development includes the enlargement of the gross floor area of an industrial, office or institutional building, the amount of the development charge that is payable in respect of the enlargement shall be calculated as follows:

- (a) If the gross floor area is enlarged by fifty percent or less, the amount of the development charge in respect of the enlargement is zero;

 - (ii) divide the amount determined under paragraph (i) by the amount of the enlargement.

Time of Payment of Development Charges

3.13 Development charges imposed under this section are payable on the date on which a building permit is issued with respect to each dwelling unit, building or structure.

- (a) the proposed number and type of dwelling units in the final plan of subdivision; and
- (b) with respect to blocks in the plan of subdivision intended for future development, the maximum number and type of dwelling units permitted under the zoning in effect at the time of payment.

the *Planning Act* are affected by the use of a holding symbol in the zoning by-law as authorized by section 36 of the *Planning Act*, the maximum number and type of dwelling units shall be determined by reference to the uses in the zoning by-law without regard to the holding symbol.

- 3.16 For the purposes of subsections 3.14 and 3.15, where a subdivision agreement identifies the number and type of dwelling units proposed for the residential plan of subdivision, the number and type of dwelling units so identified shall be used to calculate the development charges payable under subsection 3.14.
- 3.17 Despite subsections 3.13 and 3.14, Regional Council, from time to time, and at any time, may enter into agreements providing for all or any part of a development charge to be paid before or after it would otherwise be payable.
- 3.18 (a) If, at the time of issuance of a building permit or permits in regard to a lot or block on a plan of subdivision for which payments have been made pursuant to subsection 3.14, the type of dwelling unit for which building permits are being issued is different from that used for the calculation and payment under subsection 3.14, and there has been no change in the zoning affecting such lot or block, and the development charges for the type of dwelling unit for which building permits are being issued were greater at the time that payments were made pursuant to subsection 3.14 than for the type of dwelling unit used to calculate the payment under subsection 3.14, an additional payment to the Region is required, which payment, in regard to such different unit types, shall be the difference between the development charges in respect to the type of dwelling unit for which building permits are being issued, calculated as at the date of issuance of the building permit or permits, and the development charges previously collected in regard thereto, adjusted in accordance with subsection 5.1 of this by-law.
- (b) If, at the time of issuance of a building permit or permits in regard to a lot or block on a plan of subdivision for which payments have been made pursuant to subsection 3.14, the total number of dwelling units of a particular type for which building permits have been or are being issued is greater, on a cumulative basis, than that used for the calculation and payment under subsection 3.14, and there has been no change in the zoning affecting such lot or block, an additional payment to the Region is required, which payment shall be calculated on the basis of the number of additional dwelling units at the rate prevailing as at the date of issuance of the building permit or permits for such dwelling units.
- (c) If, at the time of issuance of a building permit or permits in regard to a lot or block on a plan of subdivision for which payments have been made pursuant to subsection 3.14, the type of dwelling unit for which building permits are being issued is different from that used for the calculation and payment under subsection 3.14, and there has been no change in the zoning affecting such lot or block, and the development charges for the type of dwelling unit for which building permits are being issued were less at the time that payments were made pursuant to subsection 3.14 than for the type of dwelling unit used to calculate the payment under

subsection 3.14, a refund in regard to such different unit types shall be paid by the Region, which refund shall be the difference between the development charges previously collected, adjusted in accordance with subsection 5.1 of this by-law to the date of issuance of the building permit or permits, and the development charges in respect to the type of dwelling unit for which building permits are being issued, calculated as at the date of issuance of the building permit or permits.

- (d) If, at the time of issuance of a building permit or permits in regard to a lot or block on a plan of subdivision for which payments have been made pursuant to subsection 3.14, the total number of dwelling units of a particular type for which building permits have been or are being issued is less, on a cumulative basis, than that used for the calculation and payment under subsection 3.14, and there has been no change in the zoning affecting such lot or block, a refund shall be paid by the Region, which refund shall be calculated on the basis of the number of fewer dwelling units at the rate prevailing as at the date of issuance of the building permit or permits.

3.19 Despite subsections 3.18(c) and (d), a refund shall not exceed the amount of the development charges paid under subsection 3.14.

4.0 **PAYMENT BY SERVICES**

4.1 Despite the payments required under subsections 3.13 and 3.14, Regional Council may, by agreement, give a credit towards a development charge in exchange for work that relates to a service for which a development charge is imposed under this by-law.
