

# The York Durham Sewage System Interceptor is moving forward.

The YDSS is expanding to meet approved growth outlined in York Region's Official Plan. Our infrastructure must keep pace.

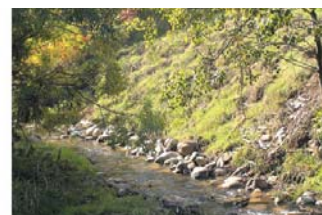

## YDSS INTERCEPTOR CONSTRUCTION

York Region is moving ahead to construction of the YDSS Interceptor, with leading-edge tunnelling technology to greatly reduce dewatering and above ground disruption to our residents. Our multi-million dollar project implementation plan ensures a thriving Oak Ridges Moraine eco-system. We'll implement environmental protection at every step.

The Yonge Street portion of the YDSS is at capacity and another severe storm as the one experienced in August 2005 in the GTA could result in sewage overflowing into residential basements. By constructing the Interceptor underneath two existing roadways, across 19th Avenue and down Leslie Street, we are reducing the risk, freeing up capacity in the Yonge Street portion of the YDSS and providing for future servicing.

For information, visit [www.york.ca](http://www.york.ca) and click on the York Durham Sewage System link.

YORK REGION. PLANNING FOR TOMORROW.

# The York Durham Sewage System Interceptor is moving forward. And with it, our commitment to the environment.

The YDSS is expanding to meet approved growth outlined in  
York Region's Official Plan.  
Our infrastructure must keep pace.

*YDSS Interceptor Construction*

York Region has raised the environmental bar with our water and wastewater infrastructure projects. We invest in an environmental protection plan to maintain our precious resources and ensure the long-term health of our communities.

The Yonge Street portion of the YDSS is at capacity and another severe storm as the one experienced in August 2005 in the GTA could result in sewage overflowing into residential basements. By constructing the Interceptor underneath two existing roadways, across 19th Avenue and down Leslie Street, we are reducing the risk, freeing up capacity in the Yonge Street portion of the YDSS and providing for future servicing.
