

Planning for Tomorrow

York Region Growth Management

Our cities are changing as we adapt and grow

Over the next two decades, York Region will experience continued rapid population and employment growth. By 2031, the Provincial Places to Grow Plan anticipates the Region will add:

- 570,000 people, to bring our population to 1.5 million people
- 337,000 jobs, to bring our employment to 800,000 jobs

In May 2008, York Regional Council endorsed proceeding with a refinement of the 40% growth scenario as the basis for the Region's Growth Plan to 2031 and recommended that public consultation open houses and town hall meetings be held to receive input on this scenario.

The preferred growth scenario includes:

- A population of 1.5 million people by 2031;
- Employment of 800,000 jobs by 2031;
- A minimum 40% intensification in existing built-up areas;
- Minimum densities of 50 people and jobs per hectare in new communities and 200 people and jobs per hectares in the Regional Centres.

Learn more and have your say

Prior to making final decisions regarding this scenario, Regional Council wants to hear your opinions through one of the following Town Hall sessions:
