

## Community and Health Services Department Office of the Commissioner

## Memorandum

TO:	Members of Committee of the Whole	
FROM:	Adelina Urbanski Commissioner, Community and Health Services	
DATE:	April 7, 2016	
RE:	York Region Seniors Strategy Advisory Task Force Update	

This memo is to provide an update to Council on the work of the Seniors Strategy Advisory Task Force.

The Task Force has been working to better understand the changing seniors demographic to help inform a York Region Seniors Strategy. The Task Force has two key deliverables, including:

- 1. A Corporate Seniors Strategy
  - To define the Region's role in serving seniors
  - To establish guiding principles
  - To identify areas for action
  - To support an advocacy agenda
- 2. A Decision-Making Tool
  - To be based on guiding principles
  - To guide Regional staff in making recommendations to Council on current and new programs for seniors

## The Advisory Task Force will provide advice and feedback to inform the Strategy

The Task Force was established in June 2015 to serve as a temporary advisory body to Regional Council. The Task Force is made up of eight Regional Council members appointed by Council, and is chaired by Regional Councillor Mario Ferri, with Regional Councillor Brenda Hogg serving as Vice Chair.

During each meeting, Task Force members hear from external subject-matter experts introducing cross-jurisdictional innovation and best practices; and regional staff presentations to identify current programs and growing pressures. In addition to an

orientation session, the Task Force has met twice. The key outcomes and discussion highlights from these meetings are summarized in Table 1below.
