

# Does your child or someone in your home have COVID-19 or symptoms of COVID-19?

## Children and staff **MUST** stay home if:

- They are sick – even if symptoms are mild
- They are not fully vaccinated and a household member is sick with a symptom on the screening tool
- They are not fully vaccinated and a household member is COVID-19 positive or waiting for test results

Taking your child to child care when they or a family member are sick can result in a fine.

Your actions impact others. Please act responsibly and keep COVID-19 out of our child care centres.
