

# RESULTS OF THE 2023 TRANSPORTATION ASSISTANCE SUPPORT PROGRAM (TASP) CALL FOR APPLICATIONS

In [September 2013](#), Regional Council approved the Transit Fare Subsidy Program with two components. The first component provides transit subsidies to eligible Ontario Works and Ontario Disability Support Program clients. The second component is the TASP, which is funded under the Community Investment Fund Program.

Through the Community Investment Fund, the York Region invests in local initiatives delivered by not-for-profit community agencies and other partners. These initiatives target gaps in the delivery of human services, complement or enhance Regional programs and deliver on [investment priorities](#) approved by Regional Council.

TASP provides funding to eligible community agencies that assist residents with transportation costs to access basic needs (i.e. food, shelter/housing, health care, clothing and personal items), education, employment and/or Community and Health Services funded programs. TASP will support residents who are ineligible for other available York Region transit programs.

We thank all applicants for their interest in the Community Investment Fund. Future funding opportunities will be posted on the Community Investment Fund website at [york.ca/communityinvestment](http://york.ca/communityinvestment). Community agencies can also subscribe to the [Community Development E-Newsletter](#) for updates.
