Hello Ms Sault,

Please find attached the presentation for the first online open house The Regional Municipality of York is undertaking as part of the Teston Rd Area Improvement IEA, between Hwy 400 and Bathurst Street, in the City of Vaughan.
Please let us know if any of the 2 attachments are missing and we can arrange an alternate file transfer. We have also provided links to our online OH1 on the York Region website for your review. Should you have questions or clarifications regarding the study, please do not hesitate to contact us.

Regards

Praveen John

Attention: Chief R. Stacey Laforme,

RE: Teston Road Area Individual Environmental Assessment (IEA)
Our File: T02 99816 EA Corr

Further to our correspondence from August 2021, the Regional Municipality of York is completing an Individual Environmental Assessment (IEA) in the Teston Road area of the City of Vaughan. The purpose of this IEA is to address transportation problems and opportunities. A Terms of Reference (ToR) was completed for this project and approved by the Ministry of Environment, Conservation, and Parks (MECP) in 2018. The ToR can be viewed on the Region's project website (http://www.york.ca/TestonRoad).

Since our last communication, we confirmed our Preferred Alternative to the Undertaking which was to extend Teston Road between Keele Street and Dufferin Street as a new roadway connection. The details of the recommended alignment for this connection can be found on the project website under the Open House 2 heading.

Additionally, the project team reviewed alternatives for various components of the proposed roadway connection between Keele Street and Dufferin Street, as well as widening of Teston Road from Dufferin Street to Bathurst Street to support the proposed new connection. Road alignments, cross-sections elements, and structure details were reviewed. This information is available on the project website under the Open House 3 heading.

To date, no archaeology field work has been completed for this project; however, we are planning archaeology investigations to be undertaken in the summer of 2022. If you have an interest in participating in the archaeological investigations, please let us know.

We hope this information will assist your community in identifying any potential interests in or concerns with the project.

The Draft IEA report is expected to be filed for review in Spring 2023; you will receive notice of the filing. At the time of filing the report will be available digitally from the Region's project website and hard copies of the report will be available upon request.

Please let us know if a meeting to review the project details and our upcoming work is desired, and we will work with you to arrange it. At the same time, should you have any questions or comments regarding the study, please do reach out to us:

Subject:	Teston Road Area, Transportation Improvements, Highway 400 & Bathurst Street - Comprehensive Environmental Assessment
Attachments:	Delegation Letter to Region_Communities_4Oct2024.pdf

Dear Chief:

RE: **Teston Road Area, Transportation Improvements, Highway 400 & Bathurst Street– Comprehensive Environmental Assessment**

I am writing to you about the comprehensive environmental assessment process for the proposed Teston Road Area, Transportation Improvements, Highway 400 & Bathurst Street Project (the project).

The Regional Municipality of York (the proponent) is proposing the extension of Teston Road between Keele Street and Dufferin Street. In December 2018, the Minister of the Environment, Conservation and Parks approved the Terms of Reference for this project, which is the first step in the comprehensive environmental assessment process. The proponent is now proceeding with completing the second step, which preparing a report that includes identify environmental impacts and mitigation.

Consultation with potentially affected or interested Indigenous communities is required during the preparation of comprehensive environmental assessment report. Based on Ontario's current understanding of treaties, traditional land use areas, claims and assertions in the project area, Ontario has identified that your community has constitutionally protected Aboriginal or treaty rights that may be impacted by the project. The ministry has therefore directed the proponent to consult with you during the preparation of the comprehensive environmental assessment (see attached letter from the ministry to the proponent).

Once the proposed comprehensive environmental assessment is submitted to the ministry, the ministry reviews the consultation record together with the project documentation and makes a recommendation to the Minister to consider in his decision whether to approve the undertaking, approve the undertaking with conditions, or refuse to approve the undertaking.

The ministry is committed to environmental protection and engaging Indigenous communities and other interested persons throughout the comprehensive environmental assessment process. The

ministry encourages you, and your community, to participate in the consultation process. The ministry will be available throughout should you have any questions or concerns.

If you have any questions or concerns at this time, please don't hesitate to contact me. If have any questions about the project, you may also contact Nick Crawford, Environmental Planner, Morrison Hershfield (now Stantec), consultant working on behalf of the proponent, at NCrockford@morrisonhershfield.com

Re: Teston Road Area Improvements Individual Environmental Assessment

Further to our correspondence from December 2023, the Regional Municipality of York has completed an Individual (Comprehensive) Environmental Assessment (IEA) in the City of Vaughan to identify road improvements in the Teston Road area from Highway 400 to Bathurst Street and from Major Mackenzie Drive West to Kirby Road. A Terms of Reference (ToR) was completed for this project and approved by the Ministry of Environment, Conservation, and Parks (MECP) in 2018. The ToR can be viewed on the Region's project website (http://www.york.ca/TestonRoad).

Since our last communication, the draft IEA report has been completed and will be submitted to the Ministry of Environment Conservation and Parks for review and approval following the review period. The Draft IEA Report is available for your review and comment until December 22, 2024 and can be accessed online at www.york.ca/TestonRoad. Comments can be provided to me with the contact information below.

A Stage 2 Archaeological Assessment was completed in July 2023 and the report was circulated to the interested communities in December 2023 for review and comments, and to provide an update on the status of the overall project. The report is available for download at the link above.

We hope this information will assist your community in identifying any potential interests in or concerns with the project.

Please let us know if a meeting to review the project details and our upcoming work is desired, and we will work with you to arrange it. At the same time, if you have any questions or comments regarding the study, please do reach out to us:

Thank you for your consideration and assistance.

Sincerely,

Billy Cheung, P.Eng.

Hello Megan,

This is Abdulrahim Mohamed, Project Officer from the Ministry of the Environment regarding the proposed Teston Road Improvement Area Environmental Assessment proposed by the Region of York.

The EA is currently with the ministry for review and is available for comments until April 17, 2026. I wanted to confirm that you received the final EA link, and whether your community will be submitting comments by the April 17th deadline. If you have any questions regarding the Environmental Assessment I can be reached at (437) 335-6352.

Thank you,

Abdulrahim Mohamed (hear name)

CAUTION -- EXTERNAL E-MAIL - Do not click links or open attachments unless you recognize the sender.

Good morning Megan,

Further to our previous correspondence with MCFN-DOCA, we would like to advise that the Teston Road Area Transportation Improvements Project Environmental Assessment (EA) has been submitted by the Regional Municipality of York (York Region) to the Minister of the Environment, Conservation and Parks for review under the Environmental Assessment Act (EAA). The EA is available for review online at: www.york.ca/TestonRoad.

York Region has undertaken the EA for proposed transportation related improvements in the Teston Road area, in the City of Vaughan (the project). The Teston Road area is bounded by Highway 400 to Bathurst Street and Major Mackenzie Drive to north of Kirby Road. If the EA is approved, the project will extend and widen Teston Road from Bathurst Street to Keele Street.

Please refer to the attached memo detailing the Notice of Submission and review process.

I also received your reply regarding the signed agreement. Thanks for advising about the staff change. We will reply separately and executed the agreement on our side. Thank you.

Thank you,

Billy

Subject: Teston Road Area Improvements CEA Report - Notice of Submission

Hello Megan,

This is Abdulrahim Mohamed, Project Officer from the Ministry of the Environment regarding the proposed Teston Road Improvement Area Environmental Assessment proposed by the Region of York.

The EA is currently with the ministry for review and is available for comments until April 17, 2026. I wanted to confirm that you received the final EA link, and whether your community will be submitting comments by the April 17th deadline. If you have any questions regarding the Environmental Assessment I can be reached at (437) 335-6352.

Thank you,

Abdulrahim Mohamed (hear name)

Subject: Teston Road Area Improvements CEA Report - Notice of Submission

CAUTION -- EXTERNAL E-MAIL - Do not click links or open attachments unless you recognize the sender.

Good morning Megan,

Further to our previous correspondence with MCFN-DOCA, we would like to advise that the Teston Road Area Transportation Improvements Project Environmental Assessment (EA) has been submitted by the Regional Municipality of York (York Region) to the Minister of the Environment, Conservation and Parks for review under the Environmental Assessment Act (EAA). The EA is available for review online at: www.york.ca/TestonRoad.

York Region has undertaken the EA for proposed transportation related improvements in the Teston Road area, in the City of Vaughan (the project). The Teston Road area is bounded by Highway 400 to Bathurst Street and Major Mackenzie Drive to north of Kirby Road. If the EA is approved, the project will extend and widen Teston Road from Bathurst Street to Keele Street.

Please refer to the attached memo detailing the Notice of Submission and review process.

I also received your reply regarding the signed agreement. Thanks for advising about the staff change. We will reply separately and executed the agreement on our side. Thank you.

Thank you,

Billy

Our working hours may be different. Please do not feel obligated to reply outside of your scheduled working hours. Let's work together to help foster healthy work-life boundaries.

Billy Cheung, M.A.Sc., P.Eng. **(he/him)** | Project Manager

March 26, 2026

Project Name: Teston Road Area Improvements
DOCA Project Number: 2019-0128
Proponent: York Region

Dear Billy Cheung,

This letter is to confirm receipt of the project-related correspondence sent by York Region, on February 25, 2026, regarding Teston Road Area Improvements.

The Mississaugas of the Credit First Nation (MCFN) are the Treaty Holders of the land on which the project will take place – specifically, the Toronto Purchase Treaty #13 (1805). The MCFN holds Indigenous and Treaty Rights specific to the project location and its environs, which may be adversely impacted by it. The Department of Consultation and Accommodation (DOCA) is designated by the MCFN to handle consultation matters on its behalf.

The DOCA consultation team has reviewed the project-related correspondence identified above, in addition to any associated documentation. The following DOCA Units have completed a review and their questions and comments have been included below.

Consultation Unit
Primary Reviewer: Megan DeVries
Questions and Comments

- None.

Environment Unit
Primary Reviewer: Simar Kaur
Questions and Comments

- Can you let us know the result of the request for review? We'd like to see the authorization if one is necessary.
- Will there be any monitoring in the East Don River to confirm that there are no impacts to redside dace or fish habitat?
- We're very happy to see the amount of compensation planned. Was this the impetus of York Region?
- Are there multiple culverts, and do all of them provide wildlife passage?

Mississaugas of the Credit First Nation
2789 Mississauga Road, Hagersville, Ontario N0A 1H0
Phone: (905) 768-1133
Fax: (905) 768-1225

Until the questions, concerns, and/or interests identified in this letter have been satisfactorily addressed, the project must not receive approval or proceed with any ground-altering activities. We request a response to our feedback within two to three weeks' time.

DOCA expects to be notified of any and all future project updates and/or changes.

If you have any questions for the DOCA consultation team, please feel free to contact us.

Thank you,

Megan DeVries

Subject: RE: Teston Road Area Improvements CEA Report - Notice of Submission
Date: Tuesday, April 7, 2026 9:37:26 AM
Attachments: image002.png image003.png image004.png

Good morning Megan,

Thank you to MCFN-DOCA for your review of the Teston Road Area Improvement CEA Report. Please find below our response to the questions / comments from the Environment Unit from your letter dated March 26, 2026.

1. **Can you let us know the result of the request for review? We'd like to see the authorization if one is necessary.**

   The Department of Fisheries and Oceans request for review will be submitted during the detail design stage once the in-water impacts are further refined. A commitment to continue to consult with DFO and request for review has been noted in the table of future commitments (Table 10-1) of the EA Report.

2. **Will there be any monitoring in the East Don River to confirm that there are no impacts to redside dace or fish habitat?**

   During the detail design stage, further aquatic field investigations are recommended to update or confirm fish habitat and aquatic conditions that were documented in 2020 and 2022 as part of the EA study. Additional investigations during detail design are recommended to include:

   - Watercourse type characterization
   - Determination or confirmation of fish species present
   - Confirmation of in water timing windows
   - Identification of specialized habitat features
   - Identification of physical barriers to fish movement
   - Confirmation of aquatic habitat sensitivity
   - Water quality monitoring

   Redside Dace have been recorded downstream of the Don River East Branch and further mitigation for this species will be considered during detail design.

3. **We're very happy to see the amount of compensation planned. Was this the impetus of York Region?**

   Thank you for acknowledging York Region's commitment to compensate for the potential impacts, particularly of the valley crossing. York Region has consulted with the Toronto and Region Conservation Authority and Ministry of Natural Resources through the design process and in development of the compensation strategy.

4. **Are there multiple culverts, and do all of them provide wildlife passage?**

   One new wildlife culvert (labeled (2) in the image below from the EA report) is proposed within the valley to allow for wildlife passage. In addition, the new bridge crossing will allow for wildlife passage. The wildlife culvert will be sized to allow for passage of larger animals like White Tailed Deer. Wildlife passage considerations will be further developed in a Wildlife Crossing Plan to be prepared during detail design, and will consider other measures (e.g., fencing) to discourage wildlife crossing over the roadway. There are other, smaller drainage culverts for roadside ditches that will be required for the new and widened roadway, which will not be sized to accommodate larger wildlife.

Please do not hesitate to reach out if you have further questions or comments. Regards,
Billy

Our working hours may be different. Please do not feel obligated to reply outside of your scheduled working hours. Let's work together to help foster healthy work-life boundaries.

Good morning Megan,

I hope you are doing well.

I'm writing to follow up on the response provided by York Region on April 7, 2026 to the questions and comments submitted by MCFN-DOCA in your letter dated March 26, 2026, regarding the Teston Road Area Improvements Project Environmental Assessment (see correspondence below for reference).

At your convenience, could you please let me know whether MCFN-DOCA is satisfied with the responses provided, or if there are any outstanding concerns or clarifications you would like the Ministry to be aware of at this stage of the EA review?

Thank you again for your review and input on this project.

Subject: Teston Road Area Improvements CEA Report - Notice of Submission

CAUTION -- EXTERNAL E-MAIL - Do not click links or open attachments unless you recognize the sender.

Good morning Megan,

Further to our previous correspondence with MCFN-DOCA, we would like to advise that the Teston Road Area Transportation Improvements Project Environmental Assessment (EA) has been submitted by the Regional Municipality of York (York Region) to the Minister of the Environment, Conservation and Parks for review under the Environmental Assessment Act (EAA). The EA is available for review online at: www.york.ca/TestonRoad.

York Region has undertaken the EA for proposed transportation related improvements in the Teston Road area, in the City of Vaughan (the project). The Teston Road area is bounded by Highway 400 to Bathurst Street and Major Mackenzie Drive to north of Kirby Road. If the EA is approved, the project will extend and widen Teston Road from Bathurst Street to Keele Street.

Please refer to the attached memo detailing the Notice of Submission and review process.

I also received your reply regarding the signed agreement. Thanks for advising about the staff change. We will reply separately and executed the agreement on our side. Thank you.

Thank you,

Billy

Our working hours may be different. Please do not feel obligated to reply outside of your scheduled working hours. Let's work together to help foster healthy work-life boundaries.

Subject:	Teston Road Area, Transportation Improvements, Highway 400 & Bathurst Street - Comprehensive Environmental Assessment
Attachments:	Delegation Letter to Region_Communities_4Oct2024.pdf

Dear Chief:

RE: **Teston Road Area, Transportation Improvements, Highway 400 & Bathurst Street– Comprehensive Environmental Assessment**

I am writing to you about the comprehensive environmental assessment process for the proposed Teston Road Area, Transportation Improvements, Highway 400 & Bathurst Street Project (the project).

The Regional Municipality of York (the proponent) is proposing the extension of Teston Road between Keele Street and Dufferin Street. In December 2018, the Minister of the Environment, Conservation and Parks approved the Terms of Reference for this project, which is the first step in the comprehensive environmental assessment process. The proponent is now proceeding with completing the second step, which preparing a report that includes identify environmental impacts and mitigation.

Consultation with potentially affected or interested Indigenous communities is required during the preparation of comprehensive environmental assessment report. Based on Ontario's current understanding of treaties, traditional land use areas, claims and assertions in the project area, Ontario has identified that your community has constitutionally protected Aboriginal or treaty rights that may be impacted by the project. The ministry has therefore directed the proponent to consult with you during the preparation of the comprehensive environmental assessment (see attached letter from the ministry to the proponent).

Once the proposed comprehensive environmental assessment is submitted to the ministry, the ministry reviews the consultation record together with the project documentation and makes a recommendation to the Minister to consider in his decision whether to approve the undertaking, approve the undertaking with conditions, or refuse to approve the undertaking.

The ministry is committed to environmental protection and engaging Indigenous communities and other interested persons throughout the comprehensive environmental assessment process. The

ministry encourages you, and your community, to participate in the consultation process. The ministry will be available throughout should you have any questions or concerns.

If you have any questions or concerns at this time, please don't hesitate to contact me. If have any questions about the project, you may also contact Nick Crawford, Environmental Planner, Morrison Hershfield (now Stantec), consultant working on behalf of the proponent, at NCrockford@morrisonhershfield.com

Sincerely,

Re: Teston Road Area Improvements Individual Environmental Assessment

Further to our correspondence from December 2023, the Regional Municipality of York has completed an Individual (Comprehensive) Environmental Assessment (IEA) in the City of Vaughan to identify road improvements in the Teston Road area from Highway 400 to Bathurst Street and from Major Mackenzie Drive West to Kirby Road. A Terms of Reference (ToR) was completed for this project and approved by the Ministry of Environment, Conservation, and Parks (MECP) in 2018. The ToR can be viewed on the Region's project website (http://www.york.ca/TestonRoad).

Since our last communication, the draft IEA report has been completed and will be submitted to the Ministry of Environment Conservation and Parks for review and approval following the review period. The Draft IEA Report is available for your review and comment until December 22, 2024 and can be accessed online at www.york.ca/TestonRoad. Comments can be provided to me with the contact information below.

A Stage 2 Archaeological Assessment was completed in July 2023 and the report was circulated to the interested communities in December 2023 for review and comments, and to provide an update on the status of the overall project. The report is available for download at the link above.

We hope this information will assist your community in identifying any potential interests in or concerns with the project.

Please let us know if a meeting to review the project details and our upcoming work is desired, and we will work with you to arrange it. At the same time, if you have any questions or comments regarding the study, please do reach out to us:

Thank you for your consideration and assistance.

Sincerely,

Billy Cheung, P.Eng.

Suite 1100
Ottawa, ON K1P 5H1

The Regional Municipality of York is completing an Individual Environmental Assessment (IEA) in the Teston Road area of the City of Vaughan. The purpose of this IEA is to address transportation problems and opportunities. A Terms of Reference (ToR) was completed for this project and approved by the Ministry of Environment, Conservation, and Parks (MECP) in 2018. The ToR can be viewed on the Region's website (York.ca/TestonRoad).

In an effort to provide your community with study information, we have attached the Open House presentation materials which were posted on the Region's website (York.ca/TestonRoad) in July 2021 for a three-week virtual open house. The above website also contains a video presentation of the attached materials if you would like to hear additional information on the project.

To date, no archaeology work has been completed for this project. Based on the study progress to date, we do not expect archaeology investigations to be undertaken until the spring of 2022. If you have an interest in participating in the archaeological investigations, please let us know.

We hope this information will assist your community in identifying any potential interests or concerns in the project.

The IEA report is expected to be filed in Spring 2023; you will receive notice of the filing. At the time of filing the report will be available digitally from the Region's project website. Hard copies of the report are available upon request.

If you have any questions or comments regarding the study, please contact either of the following project team members:

RE: Teston Road Area Individual Environmental Assessment (IEA)
Our File: T02 99816 EA Corr

Further to our correspondence from August 2021, the Regional Municipality of York is completing an Individual Environmental Assessment (IEA) in the Teston Road area of the City of Vaughan. The purpose of this IEA is to address transportation problems and opportunities. A Terms of Reference (ToR) was completed for this project and approved by the Ministry of Environment, Conservation, and Parks (MECP) in 2018. The ToR can be viewed on the Region's project website (http://www.york.ca/TestonRoad).

Since our last communication, we confirmed our Preferred Alternative to the Undertaking which was to extend Teston Road between Keele Street and Dufferin Street as a new roadway connection. The details of the recommended alignment for this connection can be found on the project website under the Open House 2 heading.

Additionally, the project team reviewed alternatives for various components of the proposed roadway connection between Keele Street and Dufferin Street, as well as widening of Teston Road from Dufferin Street to Bathurst Street to support the proposed new connection. Road alignments, cross-sections elements, and structure details were reviewed. This information is available on the project website under the Open House 3 heading.

To date, no archaeology field work has been completed for this project; however, we are planning archaeology investigations to be undertaken in the summer of 2022. If you have an interest in participating in the archaeological investigations, please let us know.

We hope this information will assist your community in identifying any potential interests in or concerns with the project.

The Draft IEA report is expected to be filed for review in Spring 2023; you will receive notice of the filing. At the time of filing the report will be available digitally from the Region's project website and hard copies of the report will be available upon request.

Please let us know if a meeting to review the project details and our upcoming work is desired, and we will work with you to arrange it. At the same time, should you have any questions or comments regarding the study, please do reach out to us:

Re: Teston Road Area Improvements Individual Environmental Assessment

Further to our correspondence from December 2023, the Regional Municipality of York has completed an Individual (Comprehensive) Environmental Assessment (IEA) in the City of Vaughan to identify road improvements in the Teston Road area from Highway 400 to Bathurst Street and from Major Mackenzie Drive West to Kirby Road. A Terms of Reference (ToR) was completed for this project and approved by the Ministry of Environment, Conservation, and Parks (MECP) in 2018. The ToR can be viewed on the Region's project website (http://www.york.ca/TestonRoad).

Since our last communication, the draft IEA report has been completed and will be submitted to the Ministry of Environment Conservation and Parks for review and approval following the review period. The Draft IEA Report is available for your review and comment until December 22, 2024 and can be accessed online at www.york.ca/TestonRoad. Comments can be provided to me with the contact information below.

A Stage 2 Archaeological Assessment was completed in July 2023 and the report was circulated to the interested communities in December 2023 for review and comments, and to provide an update on the status of the overall project. The report is available for download at the link above.

We hope this information will assist your community in identifying any potential interests in or concerns with the project.

Please let us know if a meeting to review the project details and our upcoming work is desired, and we will work with you to arrange it. At the same time, if you have any questions or comments regarding the study, please do reach out to us:
