Subject: **Weston Downs Turning restrictions**

Dear Chairman and Members of Regional Council,

I am writing to express my support for the turning restrictions being proposed for the community of Weston Downs, which were designed to address the traffic infiltration problem that exists because of a poorly designed road network in the community and because of the traffic congestion caused by the intersection at Rutherford and Weston Road, which is over capacity and cannot deal with the existing traffic volumes.

The proposed solution is designed to minimize the impact to residents who live in the community and disrupt the pattern for those who cut through our community. Please help us reduce the risk of injury to our children. Please support the proposed restrictions.

Yours sincerely

Toan and Kieu Nguyen
