

# SUBSTANCE USE PREVENTION AND HARM REDUCTION CURRICULUM SUPPORT HEALTH RESOURCES FOR SECONDARY SCHOOLS

Successful substance use prevention education for young people provides age-appropriate, factual, and non-judgmental information and helps students develop social competence, relationship and communication skills. The aim is to integrate substance use prevention messaging into all aspects of school life and connect youth with their community for support. Our goal is to engage youth and provide opportunities to emphasize their ability to make informed choices; acquire refusal skills; be a positive role model, build resilience and positively influence their peers.

## MANUALS AND CURRICULUM RESOURCES/ PAMPHLETS/POSTERS/ HANDOUTS/ WORKSHOPS/ DISPLAYS/ SPEAKERS/ PROGRAMS

**OPHEA (Ontario Physical and Health Education Association) Cannabis Education Resources:** a [database](#) to provide educators and administrators access to evidence-informed information on substance use (specifically cannabis) to help students develop the knowledge and skills needed to make informed decisions to support their health and well-being.

**iMinds University of Victoria (British Columbia):Classroom Resource H&PE Curriculum Connections:** [this online resource](#) provides the educator with a number of resources regarding drug and gambling literacy for youth in grades 4–12, including cannabis specific resources. Cross-curricular lessons are also provided for English and Social Science educators.

**CAMH (Centre for Addiction and Mental Health):** [lesson plans](#) educating students about drug use and mental health.

**The Blunt Truth:** Useful tips about safer ways to use cannabis (Canadian Research Initiative in Substance Misuse and Centre for Addiction and Mental Health) Designed for youth by youth, this easy-to-read [resource](#) provides tips about safer ways to use cannabis. It is based on Canada's Lower Risk Cannabis Use Guidelines, also [available here](#).

**Drug Awareness Resource (York Region):** helps raise awareness, knowledge and encourages open communication among students, staff, and parents in making positive choices. Available on both York Region school boards' intranet as well in a CD form.

**Media Smarts:** [lesson plans and resources](#) on how media messages on alcohol influence attitudes about drinking.

**Canadian Students for Sensible Drug Policy: Sensible Cannabis Education: A Toolkit for Educating Youth:** created for educators, as well as parents, [this resource](#) aims to support adults in having informed and non-judgmental conversations with young people about cannabis.

**York Region District School Board's Drug and Alcohol Continuum Tool Kit** is intended for teachers, guidance counselors and educational assistants. The kit provides information relating to drugs, alcohol use and the Drug and Alcohol Continuum. Additionally, the tool kit supports curriculum expectations outlined in the new Physical and Health Education Curriculum. (Teachers can access this through their internal YRDSB website under Caring and Safe schools)

**Canadian Centre on Substance Abuse (CCSA)** provides evidence-based substance use resources.

Alcohol Resources: [www.ccsa.ca/alcohol](http://www.ccsa.ca/alcohol)

Cannabis Resources: [www.ccsa.ca/cannabis](http://www.ccsa.ca/cannabis)

**Talking pot with youth:** A cannabis communication [guide](#) for youth allies (Canadian Centre on Substance Use and Addiction) This guide is designed to help adults who work with young people to have safe, unbiased, informed, non-judgmental conversations with youth about reducing the harms of cannabis. It provides practical exercises to help adults reflect on bias, create a safe space for conversation and understand the spectrum of cannabis use.

**Cannabis: Inhaling vs. ingesting** (Canadian Centre on Substance Abuse). This [infographic](#) explains differences between the two most common ways of consuming cannabis – inhaling (i.e., smoking or vaping) and ingesting (i.e., eating or drinking). It includes tips for lower risk use.

### **Drug Free Kids Canada: *Cannabis Talk Kit: Know how to talk with your teen***

This discussion [guide](#) sets the stage for open and non-judgmental conversations about cannabis. It has practical tips for parents and all adults who work with youth

### **Teen Mental Health.org**

Ten questions about cannabis use and your student (TeenMentalHealth.org) This [infographic](#) for teachers answers key questions about cannabis use and students. It is part of a series of resources for school communities developed under the leadership of Dr. Stan Kutcher

### **Canadian Public Health Association (CPHA)**

Pot + driving. This [website](#) outlines creative strategies to help adults address cannabis-impaired driving with youth, including both drivers and passengers. It includes a discussion guide for adults, a fact sheet for teens and posters to prompt discussion.

### **Government of Canada**

Health effects of cannabis (Government of Canada) This [fact sheet](#) outlines both the short-term and long-term health effects of cannabis. It also discusses related issues like mental health, addiction and brain development in youth.

### **York Region Public Health**

**Alcohol and Drugs: A Quick Guide:** a one pager resource that helps teachers or parents identify signs, side effects and behaviours of various drugs.

**Mini Booklets and mini postcards:** resources to assist educators and parents in facilitating discussion around harms and risks associated with alcohol and drug use with youth:

- Where's the Party
- Tips for Safer Partying
- A Matter of Facts
- Think About It - Youth Brain Development
- Drug and Alcohol Continuum - Where Do You See Yourself

## POSTERS:

Alcohol and Drugs. Be Informed

High School: Your move. Your choice.

How Will Your Party End?

Talk to your Child Early about Alcohol

Weed out the Myths

## FRENCH RESOURCES:

### Posters:

Comment se terminera ta Fête?

#Parlonsmarijuana

Parlez Tôt avec votre Enfant au sujet de L'alcool

**Parent Booklet:** Stratégies pour aider les parents à prévenir la consommation d'alcool chez les mineurs

## PRESENTATIONS/SPEAKERS

### York Region Public Health:

Our program offers engaging presentations to students, school staff and parents. Topics include; Alcohol, Cannabis and Opioids. Please email us at [substance@york.ca](mailto:substance@york.ca)

**Alcohol and Drugs. Be Informed. Peer-led Youth Programs.** Contact your Public Health Nurse or email us at [substance@york.ca](mailto:substance@york.ca) to request support for the following curriculum-matched peer-led programs.

- **How Will Your Party End?** Public Health Nurses providing training to student leaders (e.g. prom committee, OSAID, ESP) to present/plan initiatives for their graduating class
- **Life after Grade 8** Public Health Nurses train student leaders to present to Grade 8 students to help make the transition to high school easier
- **Transition to High School** Public Health Nurses train student leaders to present to Grade 9 students to help with their first year in high school

**Springboard: Weed Out the Risks:** This is an innovative “Weed Out the Risk” [educational program](#) to address road safety risks of driving under the influence of cannabis for young drivers or being a passenger in a high driver's vehicle. Program messaging has been directly linked to the Ontario secondary school curriculum. Facilitators will deliver a classroom session to one or more classrooms at no cost.

**Canadian Mental Health Association: Choices Program:** This [program](#) encourages youth between the ages of 12 to 17 to make informed and relevant decisions and promotes positive choices in their lives. Choices meet 2 hours/week for over 10 weeks.

**Addiction Services Central Ontario** Providing presentations and resources about substance use, problem gambling and mental health in schools and the community. Click [here](#) to book a presentation.

**Accident Awareness** provides a motivational [digital media presentation](#) which encompasses fundamental aspects directly related to adolescents and dangerous driving. The topics included in our presentation are a direct result of extensive research conducted by members of the Accident Awareness team. They offer two High School programs that are redesigned to fit today's pandemic situation.

**Mixed Company** offers [school productions and workshops](#) that have examined difficult social issues such as mental health stigma and support, healthy relationships and consent, and inclusion and equity.

**Mothers Against Drunk Driving Youth** and [school programming](#) have been a key component of MADD Canada's youth services, education and awareness initiatives since 1994. The presentations are designed to communicate directly with young people on their level and in their language, and encourage them to take a closer look at their values and perceptions.

**Narcotics Anonymous** [www.na.org](http://www.na.org)

**PARTY Program** the P.A.R.T.Y. (Prevent Alcohol and Risk-Related Trauma in Youth) [Program](#) is a one-day injury awareness and prevention program for youth age 15 and older. Developed in 1986 at Sunnybrook Health Sciences Centre, this program is a vital component of the growing community effort to reduce death and injury in alcohol, drug and risk-related crashes and incidents.

**Markham Stouffville Hospital** partners with the P.A.R.T.Y. program to help Prevent Alcohol and Risk-related Trauma in Youth. This [program](#) provides a full day of learning for students, with a focus on getting students to Stop, Think, and Act Responsibly.

**Other Locations:** [PARTY Locations](#)

**YouthSpeak** This youth-led [interactive presentation](#) helps students understand Substance Use, Addiction and Wellness. Youth speakers share personal stories about their challenges with being accepted for who they are and share a message of empowerment and hope. Students will better understand what they can do to step up in their community and actively create a more understanding environment with their peers.
