

Ontario's Publicly Funded Immunization Schedule Updated

Update to York Region health care providers as of February 4, 2021

The province has posted an updated version (last updated in December 2016) of the Ontario Publicly Funded Immunization Schedule available at:

- English: [Immunization – Ontario's Publicly Funded Immunization Schedule](#); and
- French: [Immunsation – Calendriers de la vaccination financé par le secteur public](#)

The following changes include:

- Vaccination updates to HPV-9, Rotavirus-5, and Herpes Zoster
- Removed references to Td-IPV, DTaP-IPV, and DTaP-IPV-Hib, where applicable
- Updated wording to provide better clarity and updated catch-up immunization schedule tables to accommodate “aging-out” of applicable cohorts

Printable Versions of the Publicly Funded Immunization Schedule

The province has also provided two printable versions for health care providers, including:

- A 16 page Publicly Funded Immunization Schedule resource booklet (8.5 X 11” print format) that provides information on:
 - The routine immunization schedule
 - Catch-up immunization schedules
 - High risk immunization programs and schedules
 - Eligibility criteria for all publicly funded vaccines
 - Minimum and recommended intervals between doses for vaccine series
- A larger print version, assembled schedules, that can be posted or kept with the full schedules for easy reference (8.5 X 11” print format)
