IS YOUR BUSINESS PREPARED?

Business Continuity Template

FOREWORD

The 2013 southern Alberta floods had a significant impact on the business community in Calgary. Many businesses were forced to close temporarily as they cleaned up, while a small number were impacted so severely that they were unable to resume their business operations altogether. Calgary has greatly improved its business continuity through partnership between the Calgary Chamber of Commerce and the Calgary Emergency Management Agency.

York Region Emergency Management recognizes the importance of the business sector as an essential member of the York community. The resumption of business activities is a critical component of overall community recovery following a disaster.

A disruption can be large, such as the flood event, or can be as simple as a system failure interrupting important business data. This business continuity guide was developed to assist small- and medium-sized businesses plan for the continuity and resumption of business operations following a disruption.

With thanks, York Region has adapted these materials and tools to assist the local business community.

STEP ONE: ANALYZE YOUR BUSINESS

What is the purpose of your business?

What products and services do you provide?

How do you provide your products and services? (e.g. web store, shop, delivery)

Do your service providers have business continuity plans in place?

What are your resource requirements? (e.g. suppliers, equipment, records)

Who is involved in the daily operations? (e.g. employees, suppliers)

Who are your customers?

EMPLOYEE ROLES AND RESPONSIBILITIES

NOTES:

STEP TWO: ASSESS THE RISKS

RISK MATRIX

Various risks and hazards have different severities and likelihood of occurring. Consider the different hazards in the previous page and use the risk assessment matrix below to assess the potential hazards to your business.

| | | | | | | F | isk level | 200 | | |
|-----------|---------------|---------------|--|-------------------------------|---------------|---------|-----------------|-------|---------------|--------|
| 1 | Very likely | Medium | High | High | Extreme | E | Extreme | 16 | 6 | |
| | Very | | | | | | High | 8 - | 12 | |
| | ely | | | 10.4 | | | Nedium | 3- | 6 | |
| | Likely | Medium | Medium | High | High | | Low | 1 - | 2 | |
| | Unlikely | Low | Medium | Medium | High | | | | | |
| Likelihoo | Very unlikely | Low | Low | Medium | Medium | | | | | |
| | | Insignificant | Minor | Serious | Major | Ī | | | | |
| | | Severity | | | | • | | | | |
| VALU | EUK | ELHCOD | | DINI | | | | | | |
| 4 | Ve | ery likely | Very likely | y to occur in | the foresee | able f | uture | | | |
| 3 | Li | kely | Likely to | occur in the | foreseeable | futur | e | | | |
| 2 | Ur | nlikely | Not likely | to occur in | the foreseea | able fu | iture | | | |
| 1 | Ve | ery unlikely | Will only | occur in exc | eptional circ | cumst | ances | | | |
| VALU | E 88 | VERITY | IMPACTION KE 8. INFRASTRUC | y <u>Blisiness</u> Fu Ture | NCTIONS | | FINANC MRABI | | recov Time | ery |
| 4 | м | ajor | jor Loss of key business functions and extensive damage to infrastructure. Major 1+ mont | | | | onth | | | |
| 3 | Se | erious | | impact on k nd damage | | | Signifi | icant | 1+ w | eek |
| 2 | М | inor | | pact on key no impact o | | | s Limite | d | 1-3 d | lays |
| 1 | In | significant | | mpact on ke nd no impac | | ucture | . None | | Imme | ediate |

To calculate the risk level, multiply the hazard's likelihood value by the severity value (likelihood x severity = risk level). Prioritize your planning based on the risk value.

| HAZARD | RISK LEVEL | PLANNING MEASURES |
|--------|------------|-------------------|

STEP THREE: DEVELOP STRATEGIES

What strategies can you implement BEFORE a disruption occurs?

What strategies can you implement DURING a disruption?

What strategies can you implement AFTER a disruption has occurred?

STEP FOUR: MAKE A PLAN

EVACUATION PROCEDURES AND ROUTES

Evacuation Procedures:

- Cease all other activities (phone calls, meetings, etc.)
- Remain calm and follow directions from floor wardens or emergency services personnel
- Do not return to your workspace for personal possessions; evacuate from where you are
- Walk, do not run, to nearest safe exit. Use stairwell, **NOT** elevators
- Direct all visitors to the nearest safe stairwell
- Know the alternate evacuation routes
- Check doors for heat, using the back of your hand before opening. If a door is hot, use an alternate route
- Close all doors behind you and proceed to the muster point
- Remain at the muster point and do not re-enter the building until instructed by emergency personnel

Evacuation Routes:

Draw or print out a map showing the muster points and exit routes in the space provided below.

| | | | Muster Point: Secondary: |
|------|--|--|-----------------------------|
| | | | Exit Route: |
| | | | Secondary: |
| | | | |

STEP FIVE: EXERCISE YOUR PLAN

EXERCISE PROCESS

TYPES OF EXERCISES

Workshops

Workshops are designed to familiarize the employees with their roles and responsibilities as defined in the business continuity plan. Workshops are normally conducted in a classroom setting.

Tabletop

Tabletop exercises are designed to test a hypothetical business disruption. The focus is on training, familiarization with roles, responsibilities, and procedures. Tabletop exercises are guided by a facilitator that walks the employees through the process. It is conducted in a stress-free and informal environment where participants are encouraged to ask questions.

Full-Scale

Full-scale exercises attempt to simulate a real business disruption. This is as close as it gets to a real event. This exercise takes place on location where the hypothetical disruption has occurred. Actual equipment, personnel, and business partners are often included in a full-scale exercise.
