Were any corrective measures recommended and/or implemented?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Please provide further details/steps	<p>An inspection was conducted on July 11, 2018. The clinic must ensure the following:</p> <ul style="list-style-type: none"> • Provide and wear personal protective equipment (e.g., gloves, gown, mask, eye protection) during manual cleaning of medical equipment/instruments as appropriate for any procedures that are likely to result in exposure to splashes or sprays of blood or other body fluids • Provide a dedicated hand washing sink and/or alcohol-based hand rub in the reprocessing area • Provide and use an enzymatic solution for manual cleaning of medical equipment/instruments prior to disinfection • Follow the manufacturer's instructions for use (MIFU) of the BM 28 Plus disinfectant • Monitor and log efficacy of high-level disinfectant (HLD) with appropriate test strips as per MIFU • Maintain a log of medical equipment/instruments that receive HLD • Ensure that if multi-use critical instruments are used on-site that they are sterilized using an approved sterilization process as per the Provincial Infectious Diseases Advisory Committee (PIDAC) Best Practices for Cleaning, Disinfection and Sterilization of Medical Equipment/Devices in All Health Care Settings, May 2013 			

Date any order(s) or directive(s) were issued to the owner/operator (if applicable) (yyyy/mm/dd)

Initial Report Comments and Contact Information

Any additional Comments: (Please do not include any personal information or personal health information)

An inspection report was provided to the clinic on July 11, 2018 outlining corrective measures to be implemented. The operator was educated on site during the inspection and instructed to use proper infection prevention and control practices. A re-inspection will be conducted to ensure corrective measures have been implemented.
