

NOTICE OF MAINTENANCE CONSTRUCTION

SCHOMBERG WATER TREATMENT PLANT

Dear Western Avenue Resident:

September 2017

Please be advised that as early as Tuesday, September 5 crews will be constructing a secondary driveway on the west side of the Schomberg Water Treatment Plant property located at 210 Western Avenue. This driveway will provide easier and safer vehicle access into and out of the plant. We expect this work to take approximately one week to complete.

WHAT YOU CAN EXPECT:

- Increased construction-related activity and truck traffic around the plant (Western Avenue).
- Due to the nature of the work, at times there may be construction-related noise, dust and vibration disturbances from equipment and trucks.

PROJECT PROGRESS & IMPORTANT INFORMATION:

- The secondary driveway will be secured with a gate and only accessible to authorized staff.
- To date crews have successfully connected the plant's water treatment system to the two large mobile water filtration trailers on the property.
- Crews are now working inside the plant performing scheduled maintenance work.
- Expected completion of the rehabilitation work is Summer 2018.
- Crews will continue working during the day Monday to Friday. Weekend work is not anticipated at this time.
- During construction, there will be no service disruption to your tap water and it will continue to be clean and safe to drink. Should you have any questions about your water quality, please contact the Township of King's Operations team at 905-833-5321 as they may be performing routine maintenance on the watermains in the area.

We understand construction work may be disruptive to those who live, work and play in the area and we have taken steps to reduce the impacts where possible. We greatly appreciate your cooperation and patience while we complete this project.
