

Item [No.] Pavement Marking - Obliterating

Existing pavement markings that do not form part of the operational traffic lane arrangement for any interim stage of the Work or as part of the final Contract layout shall be ground out and then blacked out using the following method:

- a) apply two coats of BLACK PAINT as per OPSS 710 and OPSS 1712 (Black-CGSB 1-GP-12C black 512-301).
- b) apply a covering 3M Chips Product No. 5013 Black at a rate of 0.5 kgs per square metre of blacked out area immediately following the application of the second coat of paint, applied directly to the wet paint to ensure adhesion prior to drying.

Payment shall be made at the unit price per metre, based on a 10 cm width, horizontally measured and shall be full compensation for all labour, materials and equipment required to complete the Work as specified in the Contract Documents.
